Answers 0Myty battery ran out. I replaced it with a new one. As soon as I put it in, the right wheel just turns around. It makes beeping tones and moves very slowly. It doesn't do anything else. The left wheel isn't moving. Replaced left wheel, but still the same behavior. In addition, once the battery is inside, the roomba starts on its own and does not stop until I take the battery out? Answers 1 The power button on the home base unit does not remain illuminated. When it is connected first, it turns green and turns off after a few seconds The answers 0roomba650 do not charge from the docking station, put the new batteries in the used roomba, which is charged and is now completely drained, the light is on at the docking station.
